Mishima Prefectural Nature Park

Takeshima Relax and unwind in an island surrounded by bamboo groves.

With 'take' meaning bamboo in Japanese, the entire island is accordingly covered with Ryuky (tootsik) bamboo. bamboo. Most of the island's black soil farmlands are planted with grass, and cows graze peacefully in the pasture stretching across the gently undulating hills.

There are ruins from the Jomon period (ca 15,000-300 BCE) throughout the island, suggesting that people have lived here for over 3,000 years.

Iwojima An island overflowing with the energy of an active volcano steeped in the history of the Heike clan.

Iwojima, in the center of the three islands and home to the white-steam-billowing Mt. Iwo, is an island filled with the energy of an active volcano and majesty of nature.

Kikaigashima, where Shunkan (a Japanese monk and historical figure) was once exiled, is thought to be Iwojima, and there are many historical sites associated with him.

Kuroshima An island of deep verdant forests that nurtures a variety of flora and fauna.

The largest of the three islands has two hamlets called Osato and Katadomari. It is richer in vegetation and fauna than the other islands, and various migratory birds and insects can be found in its diverse natural habitat.

With its lush environment, the island is blessed with products such as Kuroshima mandarins. The vast land is used for cattle grazing, and a lot of effort is put into raising cattle with sturdy loins.

Life Nurtured by Nature A Tale of Three Islands

Students from the islands paid a visit.

Three panels with photos and text: 'Mishima Takeshima Gakuen (Takeshima) Entire families worked together to catch flying fish', 'Mishima Iwojima Gakuen (Iwojima) Living with Iwojima', 'Mishima Osato Gakuen (Kuroshima) Mandarins passed down the generations in Kuroshima'.

The area around Mishima Prefectural Nature Park is blessed with soothing scenery and unspoiled nature. There are stories of the islanders who have made good use of their surroundings over the years.

There are no convenience stores or restaurants in Mishima Village, so we recommend staying at an inn. Visitors are also advised to make a reservation before they arrive at the village...

Mishima Events

Two panels: 'Mishima Village Festivals and Events Takeshima' (Feb 3: Setsubun, Aug 13: Bon Dance, Sep 15: Festival) and 'Iwojima' (Jan 7: Toidon-no-Karaidon, Apr: Port Festival, Jul: Yacht Race).
