

Notice

***The drills will be conducted without the participation of the residents.**

Nuclear Emergency Response Drills will be Executed on February 11 (Friday).

Sponsors

Kagoshima Prefecture, Satsumasendai City, Ichikikushikino City, Akune City, Kagoshima City, Izumi City, Hioki City, Aira City, Satsuma Town, and Nagashima Town

Purpose

- Based on the National Nuclear Emergency Response Guidelines and the evacuation plan developed by the prefecture, Satsumasendai City, and other neighboring municipalities, we will conduct an overall drill to raise community awareness of disaster prevention and enhance collaboration among related organizations by collaborating with the national government and business operators.
- We will further improve and strengthen the nuclear emergency response measures by reviewing the evacuation plan based on the lessons learned from the drills.

Features

- Evacuation drills for the residents in PAZ (within a radius of approx. 5 km from the nuclear power station) and UPZ (within a radius of approx. 5–30 km from the nuclear power station) will be conducted separately
 - The drill will be conducted in one day, cutting the time needed for the progression of the accident.
 - Drills that include evacuation exercises will be conducted at 8:40 a.m. and 10:10 a.m. for PAZ residents and UPZ residents, respectively.
- Apart from the Overall Drill, individual drills will also be conducted by each municipality.
 - In the Overall Drill, an evacuation exercise will be executed under the assumption that the spatial radiation dose rate has increased in some areas of Satsumasendai City and Aira City in the UPZ.
 - For the individual drills by each region, contact and communication drills and evacuation and evacuation guidance drills will be conducted in each municipality apart from the Overall Drill.
- The drills will be conducted on the assumption that an outbreak of infectious disease such as COVID-19 is occurring.

Date and Time

February 11, 2022 (Friday) 7 a.m. to 6 p.m.

Main Drills

◎We will implement infection prevention measures for COVID-19 to conduct the drills.

- Establishment of Emergency Response HQs and Operation Drill... Establish emergency response HQs for the prefecture and municipalities
- Off-site Center Assembly and Operation Drill... Set up and operate an off-site center
- Emergency Contact and Communication Drill... Report abnormal events, conduct communications between relevant organizations
- Emergency Monitoring Drill... Implement emergency monitoring, collect and assess the measurement results
- Evacuation Screening and Medical Procedures Training for Nuclear Hazard... Implement evacuation screening, distribute stable iodine tablets, provide dosing instructions for the tablet
- Public Announcement Drill to Residents... Transmit information via public announcement cars, disaster prevention government radio system, etc.
- Evacuation and Evacuation Guidance/ Sheltering Drill... Evacuation of and evacuation guidance to the residents in coordination with the relevant organizations, sheltering at evacuation shelters on the assumption of house collapse, utilizing nuclear emergency response applications in some areas

Request

On the day of the drills, a public announcement exercise will be carried out using the government disaster prevention radio system or public announcement cars; therefore, training officials and participating vehicles will operate. We appreciate your understanding and cooperation.

As a part of the public announcement exercise, notifications will also be made by emergency warning emails in Satsumasendai City, Ichikikushikino City, and Hioki City. If you have a mobile phone and it is configured to receive emergency warning emails, please note that a test email will be sent for training purposes.
