Museum Exhibit Guide

POCKET CURATOR

Making it possible to walk through museums throughout Japan with this single application

About "POCKET CURATOR"

Using text, picture, sound and animation...

This is a convenient and free application that will serve as your exclusive guide at various museums.

Easy to operate

Just input the number

"POCKET CURATOR" is a free application that lets you enjoy written explanation and narration from curators about the displayed items on your own smartphone.

With "POCKET CURATOR," you can use guides from many museums across Japan. This is because POCKET CURATOR is provided at many museums.

"POCKET CURATOR" is an application for that kind of museum enthusiast. Please bring it with you around the museums and try downloading.

When several museums are displayed in a list, you choose the museum you want to see.

The museum profile will be displayed. When viewing the exhibit, choose "Guide" and proceed by entering the number.

Input the number corresponding to the exhibited item and tap "Set."

Information such as explanations and pictures of exhibits is displayed. To enjoy replaying sounds and animations, please tap the replay button.

You choose the museum you want to use. You can search for a museum near your current location or search using the name of the museum.

If you choose "List," a list of items being exhibited will be displayed. If you choose "Download," the data from that museum will be downloaded onto your smartphone, but that data will be deleted 24 hours later.

If you search for the name of the displayed item, that information will be pulled up for you.
